

HOUSE FIRE

Sometimes, accidents happen,
and a fire can start in a house.

If there is a fire, it's very important to leave the house quickly and safely.

Grown-ups will help make sure everyone gets out safely.

Firefighters will come to
help put out the fire.

Even though fires can be scary, the
firefighters are there to keep us safe.

It's okay to feel sad or scared if something happens to our house.

Grown-ups will help us find a new place to stay until everything is fixed.

We can talk about our feelings with a grown-up, and they will listen.

Even if our things are gone, we have each other, and that's what matters most.

Draw a picture here:

With time and help, we can make
new memories and feel safe again.
