Sometimes we have fire drills at school. We practice what we would do if there were ever a fire.

First, the fire alarm will go off. It will make a loud buzzing sound.

The fire alarm will probably have flashing lights too.

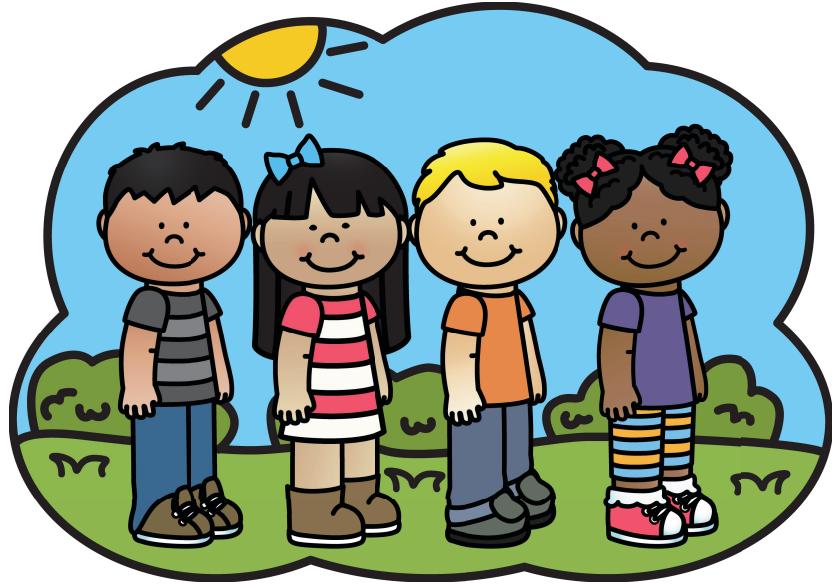

I can take a deep breath and do my best to stay calm.

Then, I can follow my teacher or an adult to the exit door. It is important to walk!

We will go outside and my teacher will find a safe spot for us to stand or sit.

My teacher will check to make sure we are all outside.

When the fire drill is all done, we can go back inside.

Fire drills help us practice what to do if there is a fire. I can try to stay calm, walk and stay with my teacher.
