

What is a hurricane?

1

Sometimes the weather is nice and sunny outside. Other times it is rainy or stormy.

One type of storm is called a hurricane. Sometimes it can be called a tropical storm.

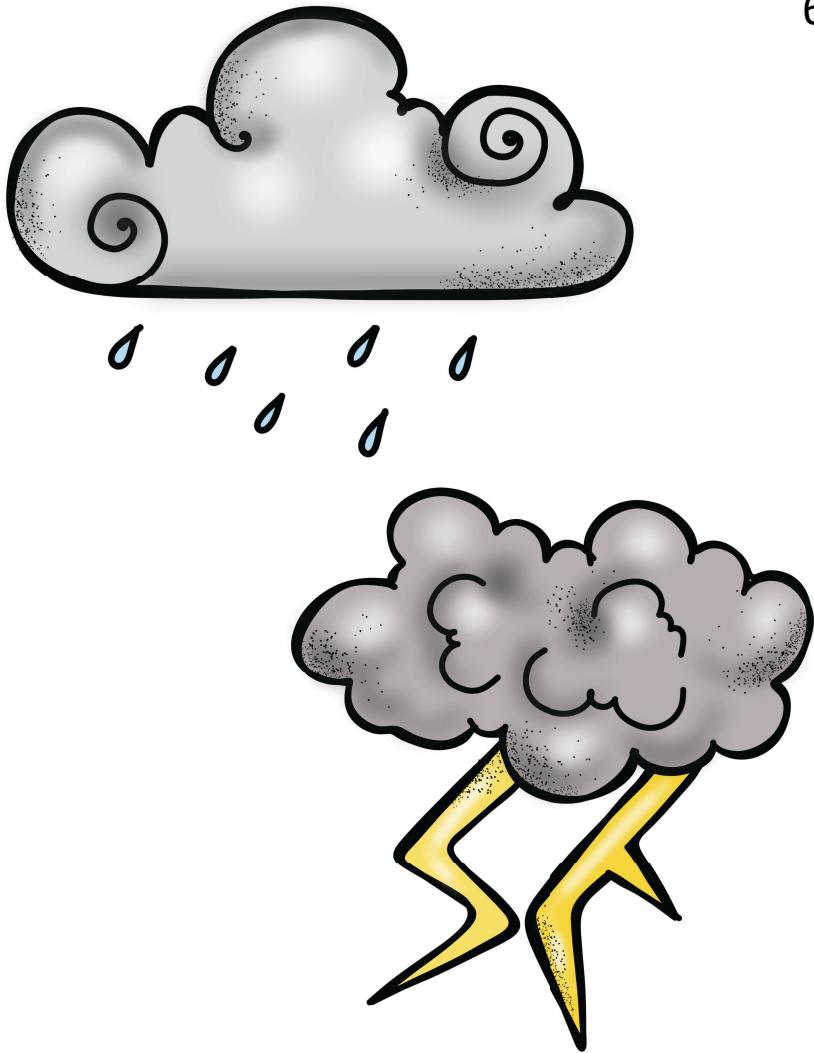

A hurricane forms over the ocean and when it comes close to land, it can be dangerous.

When there is a hurricane,
I need to stay inside.

It will be too windy to go
outside and play!

There will also be a lot of rain.
It might thunder and lightning too.

Sometimes the power goes out
when there is a hurricane. It's
okay! We can use flashlights.

If the power goes out, we can't use our tv, but we can still play with toys.

When there is a hurricane, things will be a little different. But, my family will keep me safe! It will be okay!
